Knee Pain Effective Relief Treatment

If you suffer from chronic knee pain,

Genicular Nerve Ablation

may be the right treatment.

Chronic Knee Pain Relief

Now Offering Genicular Nerve Ablation for Knee Pain

ECPC Pain Specialists is now offering the Genicular Nerve Ablation procedure for knee pain. Genicular Nerve Ablation procedures are for patients suffering from chronic knee pain, degenerative joint disease of the knee, and osteoarthritis. This procedure is also for patients who are unfit for, or want to avoid, a knee replacement. It can be performed prior to, or following, a knee replacement.

Benefits of Genicular Nerve Ablation:

- Outpatient Procedure
- Immediate pain relief without surgery
- Almost no recovery time needed
- Walk away immediately after
- Very low risk of complications
- Covered by most insurance companies

Genicular Nerve Ablation is a denervation to the Genicular nerves, which are the sensory nerves that transmit pain signals to the brain. No other medications or anesthetics are used. There is very little risk and minimal side effects associated with the Genicular Ablation procedure. Patients can expect relief almost immediately after the procedure is complete.

We now accept referrals for patients who may benefit from receiving Genicular Nerve Ablation for knee pain. Please call our offices below to schedule a referral appointment today.

ECPC Pain Specialists complies with applicable federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex.
