

Division of East Carolina Anesthesia Associates, PLLC

**Migraines** are more  
than just a **headache.**

If you suffer from chronic headaches or migraines,  
**SphenoCath<sup>®</sup>** may be the right treatment.

# Chronic Headache Pain Relief

## Now Offering SphenoCath® Procedure

ECPC Pain Specialists is now offering sphenopalatine ganglion (SPG) block procedures, using the **SphenoCath®** device, for patients suffering from **chronic headache syndromes**, including **cluster headaches**, **chronic** and **episodic migraines**, **Trigeminal Neuralgia**, and other **atypical facial pain**.

Benefits of using the SphenoCath® device include:

- Short procedure time
- Immediate pain relief for most patients
- Very low risk and discomfort
- Very high success rates
- Safe for adults, children, and pregnant women
- Reimbursed by most insurance companies & Medicare

SPG blocks can be performed easily with no general anesthesia, little discomfort, minimal side effects and low patient risk. The SphenoCath® device allows physicians to swiftly and accurately deliver local anesthetic to the SPG, providing relief for patients in as little as fifteen minutes.

We now accept referrals for patients who may benefit from this new headache treatment method. The SphenoCath® procedure is proven to alleviate chronic headache pain in most patients.

For more information about SPG blocks using the SphenoCath® device, call our offices below.

SphenoCath® is a registered trademark of Dolor Technologies, L.L.C. Dolor Technologies holds a patent on the SphenoCath® device and the method of achieving an SPG Block via nasal cavity.

ECPC Pain Specialists complies with applicable federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex.
